

SOCIAL INCLUSION

SOCIAL INCLUSION

Social inclusion is the realization of the individual within the society, acceptance and recognition of the person by private and public structures and full participation both with individual's labor and education to the society.

SOCIAL INCLUSION

- ▶ Social inclusion should create opportunities for the people at disadvantage and risky conditions. Elimination of the obstacles blocking these individuals is the aim of social inclusion.

SOCIAL INCLUSION

- ▶ Social inclusion provides the individuals at social exclusion risks and poverty with economic, social and cultural sources. It aims at individuals' full participation in the society they live.
- ▶ Our Youth and Education Organization exactly aims at this. It tries to highlight and find solutions to psychological, physical, economic and social problems the young and their families face.

SOCIAL INCLUSION

- ▶ We found it appropriate to prepare a handbook while discussing what we can do for social inclusion in our association.
- ▶ After the brain storm, not one but two handbook ideas came up better.

SOCIAL INCLUSION

- ▶ We have developed a handbook that we will use with our partners. Many experts have been consulted for this handbook. It is a handbook with high validity and reliability. It is like a road map that all partners can benefit from.
- ▶ This handbook is designed both for the training of the trainers and for the participation of the participants. So, two different handbooks are designed. The English version of both handbooks will be sent very soon so you can use this roadmap. When you tell us about the parts you want to add and remove, the handbooks are completed.
- ▶ Each country can translate it to the language it needs. For Turkey because of Syrian population we will translate them into Arabic.

SOCIAL INCLUSION

- Our handbook for training of trainers consists of 3 main modules. In module 1, what is social is explained. Also, It is explained that there are 4 components of social inclusion.
